“MeasureUP is a dual-unit device designed to **accurately measure** both **body height** and **body weight**, providing instant readings along with calculated **BMI.”**

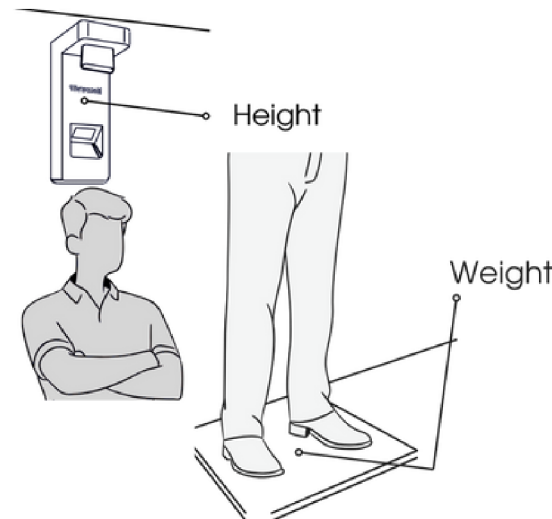

1. SetUP

Simply setup the device by hanging the Height measuring unit on a wall and keeping the Weight measuring unit underneath It

2. StepUP

Step up on to the weight measuring unit and stand straight

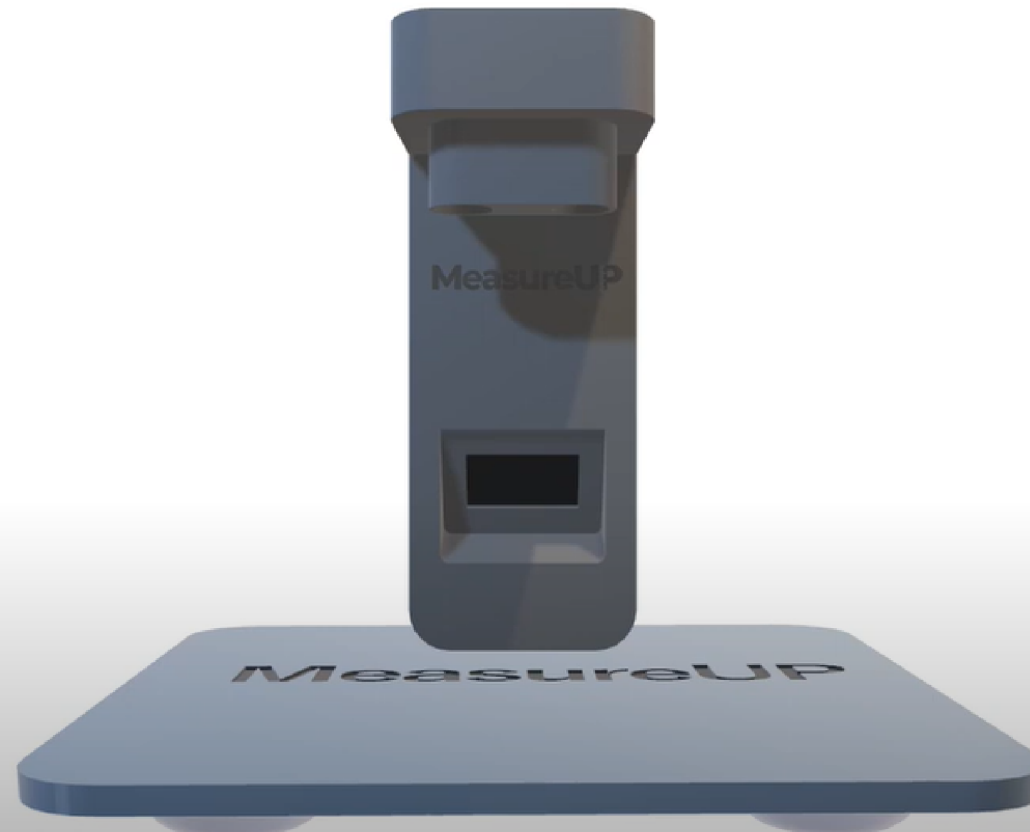

3. MeasureUP

The device will measure up both weight and the body height and will show those with the calculated BMI
